

I trust Zill.

Zill protective silo covers and silo bags

Professional protection for your silage with proved products of Zill

Zill silo cover – the name stands for quality

The combination of latest weaving technology and Zill's quality controls ensure a regular weave, a high UV-stability, a high slide resistance of the fabric and therefore a long and useful life.

Zill silo covers and Zill silo bags are specially manufactured from 100% high quality, virgin HDPE.

Your advantages:

- very high protection from damage by birds, dogs, cattle and hail
- tread-safe, resistant to tearing
- high-grade treatment of the seams and hems
- saves time by a quick and easy use
- a long and useful life
- proved practice during wind
- uncover without tyres and sand
- 10 years or more in use
- no decay, no mould

 protects from damage by birds, dogs, cattle and hail

 micro-meshed monofil yarns, highest resistance

 tread-safe, resistant to tearing

 durability: up to 10 years or more in use

 saves time, no tyres, no sand

Zill silo bags – professional protection for your silage

Ideal filling with medium 4–8 mm shingle, allows water to flow through

Zill silo bags are specially manufactured from 100% high quality, virgin HDPE. The combination of latest weaving technology and Zill's quality controls ensure a regular weave, a high UV-stability, a high slide resistance of the fabric and therefore a long and useful life.

They provide reliable protection for the edges of silos. By placing the silo bags every 5 metres crosswise, the protective silo cover is fixed and an extra weight is obtained. The bags fix each other by the supporting sleeves.

The protective coping with system for best silage

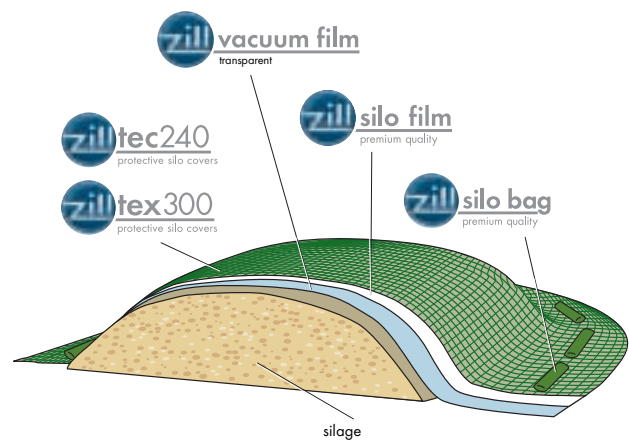

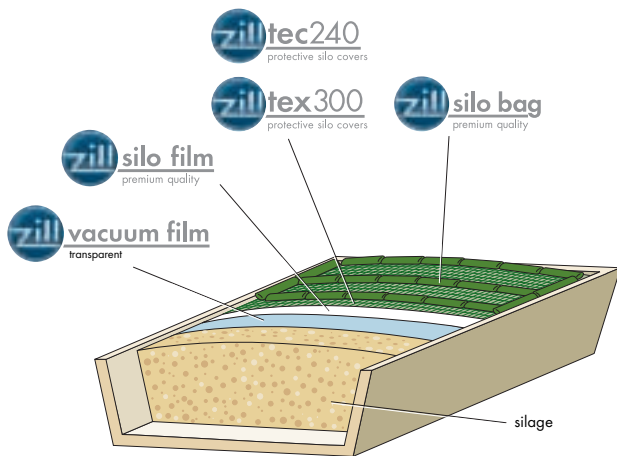

Many years of experience and a permanent dialogue with farmers have resulted in a range of quality-products, which guarantee the highest efficiency and economy in daily use!

Your advantages:

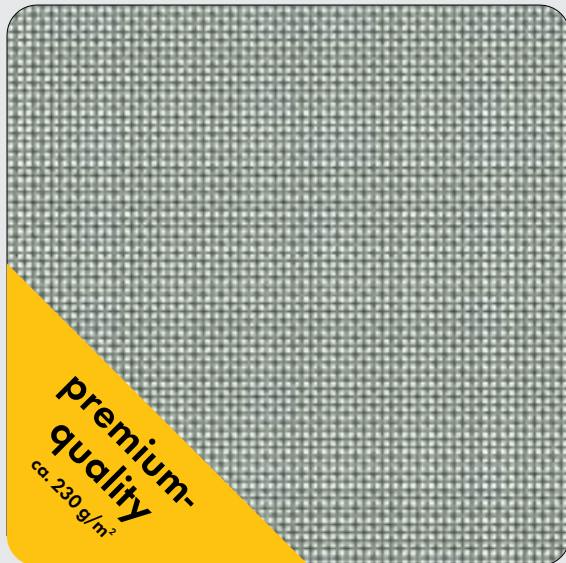

- leading quality product
- Zill's quality controls
- high quality, virgin HDPE
- a long and useful life
- highest economy
- quick and easy to use

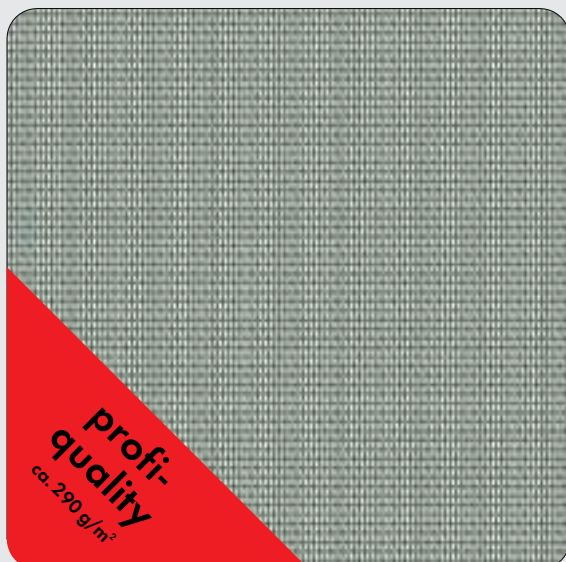

Protective silo coping with system

For any application optimal quality

Zill silo protective covers **premium-quality** gives complete protection from damage by birds, dogs, cattle and hail.

Zill silo protective covers **profi-quality**: even thicker, even heavier, for hazard areas, e.g. near by rubbish depot and water.
